The Council for Tobacco Research, U.S.A., Inc.  
110 East 59th Street  
New York, N. Y. 10022

Dear Sirs:

Enclosed is my grant application. I am returning it for review by the CTR. I re-reviewed the application, made a few minor corrections and added Dr. William E. Smith's name to the application as consultant.

Dr. Smith is an expert in this area and has agreed to assist us in this work thus strengthening the effort. We will probably be able to obtain the asbestos he used in his studies. This material has been proven a potent cocarcinogen while of itself not being carcinogenic (See reference 3) will assure us a more significant experiment.

Sincerely,

Harold J. Sobel, M. D.  
Director of Laboratories
